

CourtAlert® Case Watching and Court Data

New Alert – Oral Argument Date, Appellate Division First Department

For many years CourtAlert resisted the production of this alert, CourtAlert 241, because “matching” could only be done by name. Now, using our new synonym-dictionary approach, we will start to produce this alert.

AD1 Oral Argument Alert will be produced only if, *both* the plaintiff name in the calendar and the defendant name in calendar are alternative names on the watchlist.

A disclaimer text has been added urging users use the court’s website to verify the information. The CourtAlert team and the clients who requested this alert will closely monitor its accuracy.
