

ECF Assurance[®]

Never Miss a PACER Email or Edited Docket Update

ECF Assurance alerts you when there is a new or revised docket entry that you did not receive by CM/ECF email from the court.

Avoid the Risk

Firms have been found accountable for millions of dollars for missing updates to the docket that the court never sent via email. Courts hold that failure to monitor a docket does not excuse a missed deadline.

Missed & Revised Dockets

Courts often edit dockets and do not send out an email with the revisions. ECF Assurance alerts users of all modified dockets and clearly indicates what text was added or removed. Firms have also reported success using ECF Assurance to recover from internal email failures.

ECF Assurance[®]

ECF Assurance sends you the dockets and revisions that you didn't otherwise receive. No duplicate information.
